

Did you know...

- Lots of departments accross campus are purchasing recycled content paper!
- The ANUgreen website (www.anu.edu.au/anugreen) has simple instruction on how to set your printer to print double sided
- Recycled notebooks are easy to make by collecting one-sided paper and stapling or clipping them together
- Most emails actually don't need to be printed, think about it first!

Stacked together, the amount of paper used by ANU each year could be seen from the moon!
