THE AUSTRALIAN NATIONAL UNIVERSITY

COLLEGE OF MEDICINE AND HEALTH AND

COLLEGE OF SCIENCE

AUSTRALIAN SOCIETY FOR BIOCHEMISTRY AND
MOLECULAR BIOLOGY PRIZES

Conditions of Award

1. There shall be two prizes of $300 each for award each year which shall be known as the Australian Society for Biochemistry and Molecular Biology Prizes.

2. The prizes shall be awarded each year to the students who, in that year:
   (i) were enrolled in a program leading to the award of a degree of Bachelor in the Joint Colleges of Science; and
   (ii) achieved, respectively, the two highest average results in three of the following four courses:
        Genes: Replication and Expression (BIOL2161);
        Biochemistry of Nutrition (BIOL2171);
        Molecular Biotechnology (BIOL2162); and
        Cell Physiology in Health and Disease (BIOL2174).

3. Only the last of the three courses required for the award of the prizes must have been taken in the year of the award. The other courses may have been taken in a previous year.

4. A student is not eligible to be awarded the prize in any year if:
   (i) the student is making a second or subsequent attempt at any of the courses; or
   (ii) the student has previously pursued a program of study in a course, unit or subject (whether at the University or another tertiary education institution), the content of which is, in the opinion of the Associate Dean (Education), substantially similar to the content of any of the courses for which the prize is to be awarded.

5. If, in any year, more than two students achieve the same highest two average results, the prizes awarded in that year shall be divided equally between them.

6. If, in any year, no students achieve results that, in the opinion of the Associate Dean (Education) justify awarding the prize in that year, the prizes shall not be awarded in that year.
