# Units listed alphabetically

## Alphabetical list of undergraduate units currently offered in The Faculties

*Please refer to the Institute of the Arts Handbook for Art, Music and ACAT units.*

The following is an alphabetical list of all undergraduate units taught in the Faculties of Arts, Asian Studies, Economics and Commerce, Engineering and Information Technology, Law, and Science. Information is presented as follows:

**Column 1** The name of the unit is its official title. This title should always be used when applying to re-enrol, lodging variation forms and so on.

Where an asterisk (\*) appears in this column there is some qualification as to eligibility to enrol in that unit. This usually means stronger restrictions than the normal prerequisites or waiving of normal prerequisites. See details of unit in departmental or centre entry.

**Column 2** The alphanumeric code is for administrative purposes but contains useful information. For example:

**Column 3** This indicates the discipline to which the unit relates, or the faculty, department, centre or program offering the unit.

**Column 4** Value is a measure of the load of a unit, expressed in credit points. A normal full-time load for a year is 48 credit points. The majority of semester units are either 6 or 8 credit points, although some only carry half that load, at 3 or 4 credit points.

**Column 5**

- S1 units taught in first semester
- S2 units taught in second semester
- S3 annual units
- X1 units taught in the summer session
- X2 units taught in the winter session
- B the unit will be offered by arrangement; confirm with the department
- the unit will not be offered in 2000
