

**THE AUSTRALIAN NATIONAL UNIVERSITY**  
**MATHEMATICAL SCIENCES INSTITUTE**  
**BOYAPATI COMPUTER SCIENCE & MATHEMATICS SCHOLARSHIP**  
**CONDITIONS OF AWARD**

**1. INTRODUCTION**

The Scholarship is funded by Vijay Boyapati, an alumnus of the Mathematical Sciences Institute. The aim is to encourage students to pursue a degree in the related fields of Computer Science and Mathematics.

The Scholarship will be offered from time to time subject to funds being available.

**2. VALUE**

The Scholarship shall be valued at \$5,000.

**3. ELIGIBILITY**

A person shall be eligible to apply who is an Australian citizen, holds Permanent Residence Status in Australia or is an international student. The Scholarship will be awarded to a student entering the final honours year of a bachelor degree in either the Department of Mathematics or the Department of Computer Science, and whose project is considered by the Committee to be an appropriate mix of both areas.

**4. SELECTION**

There will be a Selection Committee ("the Committee") consisting of the Head of the Department of Mathematics and the Head of the Department of Computer Science.

The primary criterion for award is academic merit. Reports of the academic referees shall be taken into consideration.

A Scholarship shall not be awarded if, in the opinion of the Committee, there is no applicant of sufficient merit.

**5. APPLICATION**

Applications shall be called for with a closing date as set from time to time by the Committee. The application shall be submitted on the prescribed form, either electronically or in hard copy.

Two academic references shall be submitted on the prescribed form. The applicants must supply the names and contact details of the two referees.

**6. CONCURRENT HOLDING OF SCHOLARSHIPS**

A student may not hold, concurrently with this Scholarship, any other scholarship or award of the same or greater value. If the successful applicant holds a scholarship of lesser value, the Dean of the Faculty of Science and the Dean of the Mathematical Sciences Institute, acting on the advice of the Committee, may reduce the value of the scholarship.

**7. ENROLMENT**

Except with the permission of the Committee, the successful applicant shall remain enrolled on a full-time basis at this University in the Honours Year.

**8. PAYMENT**

The Scholarship shall be payable in equal instalments, one at the beginning of each semester.

**9. SUSPENSION**

The Scholarship may be suspended on medical grounds provided approval has been given for program leave.

**10. TERMINATION**

If a scholar fails to enrol, or withdraws from the course, the Scholarship must be surrendered. In such a case the Committee may consider an application for the re-award of a Scholarship in a later year.

The University may terminate the Scholarship if the scholar does not fulfill his or her obligations or if, in the opinion of the Dean of the Faculty of Science and the Dean of the Mathematical Sciences Institute, acting on the advice of the Committee, the scholar's academic performance is unsatisfactory.

Should the Scholarship be terminated the Dean of the Faculty of Science and the Dean of the Mathematical Sciences Institute, acting on the advice of the Committee, shall determine if any or all of the Scholarship monies should be repaid.
