VOLUNTARY PRE-ORIENTATION ACTIVITY

2019 has seen the expansion of our orientation programming and the addition of our ‘Welcome to Australia’ orientation trip. Students were met in Sydney, many fresh off the plane, by Global Programs team members and the Barefoot Downunder team; two facilitators of this trip. There were ice breaking games, a historical walk around Sydney, a traditional Welcome to Country by an indigenous elder, plenty of beach selfies, and a dolphin cruise to wrap it up. The students on this trip created a great friendship group and support network that they continue to engage with well into the semester.

FRIDAY PRE-ORIENTATION

FIRST COMPULSORY EVENT

The Global Programs team has put together a fantastic pre-orientation week session for our Inbound Study Abroad and Exchange students. This session grants these students early and exclusive access to essential university services, an opportunity to sort out their final course selections and is a social opportunity to meet their peers and create a sense of community. They have the opportunity to speak to ANU support staff, hear about what ANU has to offer and also have Australian reptile and beach safety presentations. It’s a great way to kick off their journey at ANU and the students have so much fun!

CANBERRA TOUR

VOLUNTARY ACTIVITY

We are so proud to be Canberran and love to show off what we have to offer here. A great way to welcome our new students to ANU is to give them a glimpse of the beautiful city they will call home for the coming months. Our Canberra tour included stops at the Australian War Memorial, Australian Parliament House and Mount Ainslie; the perfect spot for a birds eye view of this beautifully planned and designed city.

TIDBINBILLA

VOLUNTARY PAID ACTIVITY

Canberra boasts the title of the bush capital of Australia and for good reason! We are surrounded by natural beauty, bushlands and native Australian animals. We love students out to Tidbinbilla Nature Reserve during their time at ANU to immerse themselves in the environment. We take them for a lovely bush walk, see many Australian animals and usually visit the Canberra Deep Space Communication Complex co-owned by NASA!
ANU College of Law is Australia’s national law school. We are ranked 12th in the world and 2nd in Australia for law by the QS World University Rankings. Balancing global outlook with local focus, we have a long-standing reputation for excellence in education, research and community outreach.

With many academic staff recognised as leaders in their fields, the ANU College of Law has an enviable research profile, holding particular expertise in constitutional and administrative law, international law and environmental law.

Through their studies, our graduates gain the knowledge and skills to lead organisations, develop public policy, create new companies and undertake research. Our alumni may be found in the world’s leading companies, policy agencies and universities.

EXCHANGE & STUDY ABROAD COURSE SELECTION GUIDE

To enrol in a LAWS course at ANU you must be currently studying a Law degree at your home university (eg. Bachelor of Laws, Bachelor of Laws (Honours), Juris Doctor or Master of Laws).

Law exchange students undertaking a law degree at their home university can take any law course that does not have a specific course prerequisite (1000 & some 2000 level courses).

PRE-REQUISITES AND ASSUMED KNOWLEDGE

Some 2000 to 4000 level courses have specific course pre-requisites. You must meet the pre-requisites if you wish to enrol in these courses. You may struggle if you do not have the required assumed knowledge. For instance, if you are currently in your second-year, you might struggle doing a 4000 level law course.

Pre-requisites example:
You are required to have studied international law at your home institution if you wish to study LAWS4225 International Law of Human Rights, LAWS4226 International Trade Law and LAWS4223 International Dispute Resolution.

If you have not studied international law prior to coming to ANU, you need to enrol in LAWS2250 concurrently to be able to take the afore mentioned courses (subject to approval).

A detailed pre-requisites list can be found on the ANU College of Law’s website:

[link to website]

If you have any questions about meeting pre-requisites for law courses, please contact:

[link to email]

RESTRICTIONS

The following law courses are not available to exchange and study abroad students:

- Online courses
- Law internship courses
- Clinical courses
- Overseas study tour courses
- LEGW courses
- Mooting courses
- Research paper courses

INFORMATION FOR POSTGRADUATE STUDENTS

If you are studying law at a postgraduate level in your home institution, you are allowed to study 6000 and 8000 level courses, in addition to undergraduate courses in ANU. For postgraduate course selection, please refer to:

[link to website]
Our focus, within the ANU College of Business and Economics, is on developing leaders who transform businesses, societies and economies.

The strength of our international reputation attracts exceptional students from Australia, the Asia-Pacific and beyond.

Supported by a dynamic team of academic and professional staff, students are offered a full suite of engaged learning opportunities to increase their employability and globalise their education experience.

EXCHANGE & STUDY ABROAD COURSE SELECTION GUIDE

Exchange and study abroad students from any disciplines are allowed to take CBE courses, subject to home institution approvals. Students are allowed to take 1000, 2000 and 3000 level courses in CBE. Please note that students need to meet course pre-requisites in addition to obtaining approval from home institutions. 4000 level courses are intended for honours students. They are not available to exchange and study abroad students.

PRE-REQUISITES AND ASSUMED KNOWLEDGE

Some 2000 to 4000 level courses have specific course pre-requisites. You must meet the pre-requisites if you wish to enrol in these courses. More information about pre-requisites and assumed knowledge are available on programs and courses website.

Pre-requisites Example:
To enrol in STAT2013 you must have completed either of the following ANU courses; MATH1113, MATH1116 or MATH1014. As you have not previously completed courses at ANU, you must demonstrate that you have achieved similar learning outcomes at your home institution. By using the ANU Programs and Courses site, you can see that these courses cover Linear Algebra and Calculus. You must therefore demonstrate that you have completed study of these subjects at an adequate level at your home institution. You will be required to provide detailed course outlines for relevant subjects to demonstrate that these topics have been covered.

If you have any questions about meeting pre-requisites, please contact:

info.cbe@anu.edu.au

REstrictions

Exchange and study abroad students are not allowed to take CBE Internship Project CBEA307 and CBE Special Industry Project CBEA3001.

1. Focuses on a system engineering approach, according to QS Rankings 2018
EXCHANGE & STUDY ABROAD COURSE SELECTION GUIDE

Exchange and study abroad students are allowed to enrol in 1000, 2000, 3000 level courses, subject to home institution’s approval. Please note that students need to meet course pre-requisites in addition to obtaining approval from home institutions. 4000 level courses are not available to exchange and study abroad students.

PRE-REQUISITES AND ASSUMED KNOWLEDGE

Most 2000 level courses and above have specific course pre-requisites. You must meet the pre-requisites if you wish to enrol in these courses. Detailed list of pre-requisites and assumed knowledge are available on programs and courses website.

Pre-requisites example:
To enrol in COMP2700, Cyber Security Foundations course, you must have completed COMP1100 or COMP1130 and COMP1600 in ANU. As you have not previously completed courses at ANU, you must demonstrate that you have completed courses with similar learning outcomes at your home institution. You will be required to provide detailed course outlines from your home institution for relevant subjects to demonstrate that you have met the pre-requisites.

If you have any questions about meeting pre-requisites, please contact:

studentadmin.cecs@anu.edu.au

RESTRICTIONS

Research projects, Special Topics courses and Internships are not available to exchange and study abroad students. Case-by-case approval may be granted by the Associate Dean (Education) to students who have secured a commitment of joint supervision from an ANU Supervisor and a Home University Supervisor.

FEATURED COURSES

Students from related disciplines and backgrounds are not guaranteed enrolment to featured courses as well as other engineering and computer science courses. 2000 level and above courses are not entry-level courses. Enrolments are subject to approval from relevant academic college/s. Students are encouraged to take foundational and 1000 level courses if they do not have the required assumed knowledge.

EXCHANGE & STUDY ABROAD COURSE SELECTION GUIDE

Exchange and study abroad students from any disciplines are allowed to enrol in CASS courses. Students are allowed to take any 1000, 2000 and 3000 level courses, subject to home institution’s approval. Please note that students need to meet course pre-requisites in addition to obtaining approval from home institutions. 4000 level courses are not available to exchange and study abroad students.

PRE-REQUISITES AND ASSUMED KNOWLEDGE

Some 2000 and 3000 level courses have specific course pre-requisites. You must meet the pre-requisites if you wish to enrol in these courses. Some courses may also require students to travel outside of Canberra. Students are responsible to ensure that they have the required travel documentations, clearance and financial capacity prior to enrolling in these courses.

Pre-requisites example:

To enrol in POLS2102, Political Belief and Deceit course, you must have completed 12 ANU units of 1000-level POLS courses or have permission from the course convenor. As you have not previously completed courses at ANU, you must demonstrate that you have completed courses with similar learning outcomes at your home institution. The courses you have completed need to be equivalent to 12 ANU units and have similar learning outcomes to 1000 level POLS courses in ANU. You may be required to provide detailed course outlines from your home institution for relevant subjects to demonstrate that you have met the pre-requisites.

Students can check pre-requisites and course requirements online on ANU programs and courses website. If you have any questions about meeting pre-requisites, please contact:

EXCHANGE & STUDY ABROAD COURSE SELECTION GUIDE

The College welcomes enrolment from exchange and study abroad students in all of its undergraduate courses, including 1000, 2000 and 3000 level courses. Admission in postgraduate level courses is granted on a case by case basis and only to students currently studying at a postgraduate level at their home institution.

Students who wish to continue their language study will be required to a language placement test prior to enrolment to ensure they are placed in the correct course.

PRE-REQUISITES AND ASSUMED KNOWLEDGE

Some 2000 to 3000 level courses have specific course pre-requisites. You must meet the pre-requisites if you wish to enrol in these courses. You may struggle if you do not have the required assumed knowledge.

Pre-requisites Example:
A 3000 level Security Studies course may require you to have already completed 2 introductory Security Studies courses to ensure you have a firm basis in the discipline. As you have not previously completed courses at ANU, you must demonstrate that you have completed courses with similar learning outcomes at your home institution. You will be required to provide detailed course outlines from your home institution for relevant subjects to demonstrate that you have met the pre-requisites.

Find out more about pre-requisites and assumed knowledge on programs and courses website:

At the ANU Joint Colleges of Science, Health and Medicine we are committed to solving problems through big picture and applied scientific research, to improving health outcomes for people around the world, and to the sustainable, secure and equitable use of global resources. In the past 70 years we have produced four Nobel Laureates, some of Australia’s most pre-eminent scientists and thousands of graduates with a world-class education in science, health and medicine. An intensive research culture combined with small class sizes provides an unparalleled learning environment, ensuring our students become leaders of the future with knowledge and skills to lead organisations, develop public policy, create new companies and undertake research. Our alumni may be found in the world’s leading companies, policy agencies and universities.
EXCHANGE & STUDY ABROAD COURSE SELECTION GUIDE

Exchange and study abroad students are only permitted to take 1000, 2000 and 3000 level courses. When selecting courses, students need to ensure that they have met the pre-requisites and assumed knowledge prior to their study in ANU.

PRE-REQUISITES AND ASSUMED KNOWLEDGE

Some 2000 to 3000 level courses have specific course pre-requisites. You must meet the pre-requisites if you wish to enrol in these courses. Certain courses also require an expression of interest as spaces are often limited or involve some form of travel.

More information about pre-requisites and assumed knowledge can be found online on the ANU programs and courses website.

`programsandcourses.anu.edu.au`

Pre-requisites example:

To study ASTR3002 you are required to have some prior knowledge to ensure you are able to succeed in this course. ANU students are required to complete ANU courses PHYS2020 and MATH2306 prior to enrolling in this course; please visit the ANU Programs and Courses site to review the learning outcomes for these two courses to ensure you have covered these topics at your home institution. You will need to provide evidence that you have achieved these learning outcomes by providing course outlines from your home institution.

If you have any questions about meeting pre-requisites, please contact:

`science.enquiries@anu.edu.au`

RESTRICTIONS

The following science courses are not available to exchange and study abroad students:

- Science internship Courses
- Research Project Courses*
- Any courses that require a supervisor*

*students may be approved to take the research courses under special circumstances.

The ANU School of Art & Design provides a stimulating environment in which to study art history and art theory, design and visual arts. Located in an iconic art deco building on the ANU campus in central Canberra, the school has drawn on its proximity to Australia’s national galleries and museums to build a strong reciprocal relationship with major cultural institutions for teaching and learning.

Our philosophy embraces an interdisciplinary and flexible approach to art education, where digital practices augment traditional media. We have a long-standing reputation for excellence in teaching and learning, practice-led research and community outreach.

soad.cass.anu.edu.au
EXCHANGE & STUDY ABROAD COURSE SELECTION GUIDE

Exchange and study abroad students from any discipline are allowed to enrol in ARTH (Art History and Art Theory) 1000 and 2000 level courses, subject to receiving approval from their home institution and meeting course pre-requisites. 3000 level ARTH courses are restricted and will be assessed on a case-by-case basis.

To enrol in most ARTV (Visual Arts) and DESN (Design) courses at ANU you must be currently studying a visual arts or design degree at your home university. ARTV and DESN courses have a limited enrolment capacity and access is restricted. Eligible exchange and study abroad students can nominate 1000, 2000 and 3000 level ARTV and DESN courses, subject to receiving approval from their home institution. 4000 level courses are not available to exchange and study abroad students.

Students interested in taking studio-based courses in the School of Art & Design should note that many courses will charge a material fee which is not covered by the tuition waiver. Material Fees and Optional Workshop Fees are outlined on the School of Art & Design website.

PRE-REQUISITES AND ASSUMED KNOWLEDGE

Some 2000 and 3000 level courses have specific course pre-requisites. You must meet the pre-requisites if you wish to enrol in these courses. Students can check pre-requisites and course requirements online on the ANU Programs and Courses website.

Pre-requisites example:
To enrol in DESN2003 Creative Data Visualisation you must have completed DESN2002 Foundations of Creative Code. As you have not previously completed courses at ANU, you must demonstrate that you have completed courses with similar learning outcomes at your home institution. The courses you have completed need to have similar learning outcomes to DESN2002. You may be required to provide detailed course outlines from your home institution for relevant subjects to demonstrate that you have met the pre-requisites.

Portfolio requirements for Visual Arts and Design students:
To be considered for enrolment into 2000 or 3000 level ARTV or DESN courses, please email a portfolio to soa.ug@anu.edu.au for consideration. Your portfolio should include 12-15 images (photographs, video(s), website link, etc.) of current work. It needs to demonstrate proficiency and skills equivalent to the specific pre-requisite course(s) listed on the ANU Programs and Courses website. Your portfolio will be considered by academic staff in the relevant discipline(s) at the School of Art & Design.

If you have any questions about meeting ARTH, ARTV or DESN course pre-requisites, please contact:

soa.ug@anu.edu.au

The Australian National Internships Program (ANIP) offers research-focused internships with the leading institutions of Australian policy-making and politics. Open to students from all academic disciplines, this elite program has provided a foundational experience for emerging leaders in public policy, diplomacy, development policy, trade, security, Indigenous affairs, environment, migration, education, economic policy, cultural institutions, health, gender and social policy.

anip.anu.edu.au
EXCHANGE & STUDY ABROAD COURSE SELECTION GUIDE

Students receive academic credit for undertaking ANIP. In addition to a work placement with a host, the ANIP course includes workshops on policy research and professional skills, and academic supervision by ANU. Postgraduate and upper-level undergraduate students from any academic discipline are eligible to apply.

Exchange and study abroad students must apply directly to ANIP via the online application form available on the ANIP website (anip.anu.edu.au) as well as complete the required application process of their home university. Applications are open from August to September for internship placements in semester one (February to June), and March to April for internship placements in semester two (July to November).

The application form asks about your research strengths and career aspirations so that you can be shortlisted for projects on offer with ANIP hosts. You will need to upload a two-page Curriculum Vitae outlining your educational qualifications and work experience, along with an academic transcript of results from your home university. One referee report is also required, and it must be from a referee who can comment on your academic performance or research skills.

ANIP internships are unpaid as they are focused on an applied policy research project. The research project forms 70% of the final mark for the ANIP course, with other assessment covering research design (10%) and a work-in-progress presentation (20%).

If you have any questions about ANIP, please contact:

Email: internships@anu.edu.au
