WHO WE ARE

Challenge yourself and the world around you

The Australian National University (ANU) will inspire you to confront the biggest issues and solve problems beyond your imagination.

We are Australia’s number one university and offer 50 single degrees for you to choose from and the flexibility to design your own double degree from 750 possible options.

As well as being able to tailor your studies to fit your strengths, passions and goals, you’ll learn from lecturers who are world leaders in their fields, in small class sizes with high staff-to-student ratios.

Alongside lectures, you’ll study in state-of-the-art collaborative spaces that will stimulate you to think differently, solve problems and challenge the truth.

Informing your learning throughout your studies will be our cutting-edge research as well as opportunities to take part in world-class international student exchange programs and engage with industry and government through internships.

Your new community of vibrant academic, cultural, sporting and social activities will help you make lifelong friendships and build career-enhancing networks – and look after your wellbeing, to make sure you thrive.

Choose to live in one of our catered or self-catered residential halls and you will find yourself at the heart of an inclusive, world-class campus. Canberra’s CBD, your classes, libraries, gyms, medical services and much more will be right on your doorstep.

Challenge yourself. Meet your future at The Australian National University.

Welcome to The Australian National University

2020 has been a year like no other. Despite the challenges, the future is full of opportunity and being able to come to the national university, one of the greatest universities in the world, gives you a chance to chart your future.

Some of you will have very clear plans but most of you probably won’t and that’s okay. Coming to university is your chance to find out what you are passionate about and what interests you, inside and outside the classroom.

My best advice is for you to take the opportunity to not just do what you’re comfortable with, but to push yourself outside your comfort zone. Make sure you meet new people who are doing new and interesting things, be part of our clubs and societies, so you immerse yourself in campus life. Work hard but have fun too.

The 2022 undergraduate student guide will help you decide which programs interest you and where your passions might lie.

I made the decision to join ANU because it is a world leader in providing students with incredible opportunities that transform their lives and truly change the world.

Our motto is “First, know the nature of things”. At ANU, we have created an environment that allows great minds to reach their potential through excellence in teaching and by supplying transformative opportunities for growth and encouraging confidence to explore new ideas.

Our students are central to everything we do. The ANU community consists of bright and engaged students who come to Canberra from across Australia, our region and around the world, giving you opportunities to meet amazing people and build lifelong friendships.

You will have the chance to learn from some of the world’s best teachers who are at the forefront of their fields and to become part of a lively intellectual community.

If you want to change the world, shape the future or make a real difference, ANU will help you get there. Our graduates are amongst the most employable and our alumni include many of the world’s movers and shakers.

Long after you graduate, our alumni relations program will continue to connect you to extensive professional and social networks around the world.

I am pleased to invite you to apply to ANU for your undergraduate studies and look forward to welcoming you into our community in 2022.

Professor Brian P. Schmidt AC
Vice-Chancellor and President
SCHOLARSHIPS

Our scholarships are helping students from all around the country study at Australia’s #1 university.*

When you apply directly to study at The Australian National University (ANU), all you will need to do for us to consider you for a scholarship in 2022 is tick the scholarship box in your application form**. Scholarships can help offset the cost of tuition fees, campus accommodation, travel and other study expenses – giving you more time and energy to focus on your studies and on getting the most out university life.

Some of our scholarships go beyond the financial. They can link you to a community of like-minded scholars and give you access to opportunities that can help you make a difference in your community while developing networks that can enhance your career after graduation.

Explore our full range of scholarships and eligibility requirements. They include:

The Tuckwell Scholarship
With 25 scholarships awarded each year, the Tuckwell Scholarship is the most transformational undergraduate scholarship program in Australia. Exclusive to ANU, it could provide you with a minimum $22,200 per year for up to five years and give you access to exclusive enrichment opportunities. And, after you graduate, you’ll continue to enjoy lifelong membership of the global Tuckwell alumni network.

While you can express interest in the Tuckwell Scholarship in your direct application to ANU, you will need to apply for it separately.

Learn more about the Tuckwell Scholarship

Australian National Scholarship
Each year, ANU offers up to 25 Australian National Scholarships to help talented students from disadvantaged backgrounds access higher education and to support them during their studies.

London Alumni Scholarship
Providing support to students who are experiencing financial hardship and other disadvantages, the new London Alumni Scholarship helps with the cost of study.

Love Scholarship
Promoting equity and diversity at ANU, the Love Scholarship is awarded to two students each year who have faced ongoing difficult circumstances that have seriously challenged their ability to study at university.

*QS World University Rankings 2021
**If you apply directly to ANU for study in 2022 and tick the scholarship box, we will consider you for all eligible scholarships. If you apply through the Universities Admission Centre, you will need to check each scholarship on the ANU Scholarships website for information on whether you are eligible and how to apply.

Taylor Heslington
Flexible double degree: Bachelor of Laws (Honours)/Bachelor of International Security Studies

I came to Canberra from a regional town in Victoria after being lucky enough to receive an ANU Equity Accommodation Scholarship and Australian Veterans’ Children Assistance Trust Commemorative Bursary.

The financial support has made it possible for me to live on campus while I’m studying and to take part more in my residential community and the larger campus community.

Studying and living at ANU offers a wealth of opportunities and having the scholarship and bursary have helped me take these up. Without the major financial pressure, I’ve been able to pursue the things I’m passionate about, including volunteering and taking part in arts events and student committees.
The Australian National University (ANU) is making it easier for you to settle into your first year of tertiary study by guaranteeing you a place in a student residence.*

Picture yourself living within walking, cycling or e-scooter distance of Canberra’s CBD and arriving within minutes to your classes, casual job, gyms and cafes as well as libraries, supermarkets and more.

University accommodation offers you a chance to become part of a diverse and vibrant community with access to events and opportunities that are all about broadening your horizons and helping you to make friends and build networks for life.

Each ANU residential hall or college has its own ethos, character and social and academic life – and a bevy of staff and senior residents who will provide pastoral care and support your safety and wellbeing 24/7.

You can live communally or independently and in catered or self-catered accommodation. Whichever your preference, you can rely on a calendar filled with exciting social, cultural, sporting and academic activities and a network of support that will make your time at university fun and stimulating, as well as educational.

### Plan your budget

If you’re thinking of leaving home to head to university, plan a budget during 2021 to help you meet your living expenses. As well as your annual accommodation fees, your budget should include the cost of food, entertainment, public transport fares, textbooks, clothing and stationery.

Explore ANU scholarships. If you’re eligible, these can help you with the cost of accommodation as well as other study expenses. For more information about scholarships, go to page 4 of this guide.

*The ANU Accommodation Guarantee covers students coming to ANU to undertake undergraduate study for the first time. It guarantees an offer of accommodation in one of our campus residences.

---

**Brittany Mashado**  
*Flexible double degree, Bachelor of Politics, Philosophy, Economics/ Bachelor of Laws (Hons)*

Leaping from the safety of my family and community in Adelaide to Canberra to study at university was one of the scariest things I had ever done. Now, I think that choosing to move into a student residence on campus has been one of my best decisions.

Since arriving in Canberra, I have made some of my closest friends and enjoyed continuous pastoral and academic support from my college’s senior residents, tutors and older students.

Leaving home was hard, but now I feel that ANU is home and my college family.
LEARN BY ADVENTURE

Where will you go?

At ANU, you can study at some of the world’s top universities and learn and practice a new language and culture while connecting with other outstanding students from around the globe – all while earning credit towards your degree.

Participate in one or several short of long-term programs – you will have more than 180 ANU partners in 39 countries to choose yours from.

And, while you’re internationalising your degree, you’ll make new friends and foster personal and career networks that will last you a lifetime.

There’s nothing like learning by adventure. Build your skills, knowledge and life experience by studying abroad. You’ll also expand your career options after graduation.

Discover global programs at ANU

David Chieng
Flexible double degree: Bachelor of Arts/Bachelor of Laws

One of my favourite things about ANU has been the overseas exchange opportunities. During my two-and-a-half years here, I have already done a short winter language course in Japan at Ritsumeikan University with the help of a $3,000 NCP Mobility Grant and studied one of the law programs at the London School of Economics and Political Science Summer School.
Match the subjects you have enjoyed studying at school with some ANU degree programs. You won’t be limited to these, though. For more information about our degrees, see page 18.

Flexible double degree: Bachelor of Laws (Honours)/Bachelor of Economics

ANU has given me the once-in-a-lifetime opportunities and adventures that come with being a student of a world-class university – and through these opportunities, I’m getting to see the impact on the world of the things I’m learning on a day-to-day basis.

During one of my semester breaks, I was fortunate enough to take part in a public health study tour and to be financially supported to study at local hospitals in Yogyakarta, Depok and Jakarta in Indonesia. At all of these hospitals, I learned about implementing public health programs in developing countries and different geographical areas.

This year, I am excited about being part of a team of ANU students who will be volunteering as paralegals in the Kimberley region of remote Western Australia, where we will be supporting lawyers working to get justice for Indigenous Australians.

Every day that I’m at ANU, I get closer to completing my degree while gaining new degrees of experience.
HOW TO APPLY

Apply direct to ANU

You can apply to study at ANU early by submitting a direct application. What’s more, applying directly is free and covers admission, scholarships and accommodation in one application.

1. Check you're eligible to submit a direct application
   - You can complete a direct application if you are a domestic Australian school leaver in 2021, wanting to apply for an undergraduate program that starts in 2022.
   - Australian school leavers mean those who will complete an Australian Year 12 or International Baccalaureate Diploma (November session).
   - You can also apply for campus accommodation and all available scholarships in the same application.

2. Consider which programs are best for you
   - Choose from over 50 bachelor degrees, or combine degrees to study a flexible double degree program. To find out which degree suits your interests and career goals, see page 10.
   - Some degrees require you to have studied specific subjects in Year 12. Before you apply, make sure you’re eligible for your chosen degree by checking the prerequisites on page 18.

3. Check you meet the co-curricular or service requirement
   - All domestic school leavers are required to meet the requirement.
   - You can find out more about the requirement on page 16.

4. Apply direct to ANU
   - Great work! You’re now ready to apply.
   - Remember applications open on 3 March 2021 and close on 24 May 2021.

Apply through UAC

If you do not meet the criteria to submit a direct application to ANU between March and May, don’t worry, you can apply to ANU via The Universities Admissions Centre (UAC) later in the year.

You can submit a UAC application if you are:
   - not a school-leaver, e.g., you have taken a gap year
   - seeking admission as a mature-age student
   - wanting to transfer to ANU from another institution.

Direct application dates

- 3 March 2021
  Direct applications to ANU open
- 24 May 2021
  Direct applications to ANU close
- 9 August 2021
  Early offers released
- 6 September 2021
  Early offer acceptance deadline
- From late December 2021
  Further offers begin to be released
- January 2022
  Final offer acceptance deadline
- 15 February 2022
  ANU Orientation Week
- 22 February 2022
  Classes commence

UAC application dates

- August 2021
  UAC applications open
- 2022 Closing date
  Refer to uac.edu.au
Elite athlete adjustments

ANU is an elite athlete-friendly university. We will provide additional support if you are recognised as an elite athlete by the Australian Sports Commission's AIS Personal Excellence program. You may be eligible for five elite athlete adjustments.

> anu.edu.au/students/health-safety-wellbeing/access-inclusion/anu-student-elite-athlete-program
**THE CO-CURRICULAR OR SERVICE REQUIREMENT**

The skills you have gained outside the classroom during Years 10-12 will help you succeed at university. That is why when you apply to The Australian National University (ANU), you will need to meet our co-curricular or service requirement along with the academic requirements for your degree program.

**Skills to succeed**

In your application, you will need to tell us about your involvement in activities outside the classroom. These can include such activities as volunteering, part-time work, caring for a family member or playing sport.

**Meeting the co-curricular or service requirement**

Refer to the matrix on the next page for examples of the type of activities that we recognise as meeting our co-curricular or service requirements. Each activity is mapped against seven skills:
- Creative and critical thinking
- Community engagement
- Inclusion & awareness of diversity
- Communication
- Leadership
- Personal responsibility
- Teamwork

You have met the co-curricular or service requirement when you can demonstrate that you’ve attained at least three of seven skills.*

**How the requirement works**

- The co-curricular or service requirement is a threshold which is either met or not met. We won’t rank you against other applicants.
- The requirement does not modify your ATAR or ANU selection rank. You must meet it in addition to other admission requirements that apply to your preferred program.
- The requirements can be met through activities that were completed in Years 10, 11 or 12; and must be met at the time of application.
- You will need to provide supporting documentation with your application to confirm your participation in activities.

For more information, visit the co-curricular or service requirements page of the ANU website.

Some activities have minimum commitment requirements. For additional detail on the activities recognised as meeting the co-curricular or service requirements, see: [anu.edu.au/study/apply](http://anu.edu.au/study/apply)

This process will:
- operate as a simple threshold which is met when an applicant has attained 3 out of 7 skills
- highlight skills that enhance employability outcomes.

This process will not:
- competitively rank students by the activities they undertake
- change a student’s ATAR, or impact other entry requirements
- replace ANU adjustment factors.

---

*VICTORIAN STUDENTS*

Due to the level of disruption of Year 11 schooling in 2020, Victorian school leavers completing Year 12 only need to meet two of the seven ANU co-curricular or service requirement skills.
**SINGLE DEGREE PROGRAMS**

The Australian National University (ANU) offers more than 50 single degrees for you to choose from.

At ANU, you can focus on a specific subject area or select a combination of subject areas to explore.

Our single degrees generally take between three and four years of full-time study to complete and allow you to focus on a structured discipline or experience a broad range of subjects.

If you have a career in mind and know what you want to study, choose a structured degree like a Bachelor of Engineering (Honours) or a Bachelor of Health Science.

If you want flexibility to study a range of subjects within a discipline, choose something like the Bachelor of Arts or Bachelor of Science.

1 Selection Rank: The ranking that tertiary admission centres and most universities actually use to assess admission to a program. A person’s program Selection Rank can include their ATAR, any equity adjustments they are eligible for other contributions calculated on the basis of work experience or previous non-secondary study, portfolio assessments, results of the Special Tertiary Admissions Test, other supplementary tests, etc.
2 2021 Selection Rank required for consideration to enter in next intake: where a threshold minimum Selection Rank must be achieved to be considered for admission to a course or institution.

**Maths and English mandatory from 2023**

High-school Maths and English courses will help equip you with the skills you need to excel during your time at ANU. Starting in 2023, participation in secondary Maths and English will be mandatory for all applicants. Applicants will satisfy this requirement upon the successful completion of:

> At least one English unit in at least one semester during Year 11 or Year 12; and,
> At least one Maths unit in at least one semester during Year 11 or Year 12.

Note: Admission requirements may vary from year to year. See programsandcourses.anu.edu.au/for any changes in entrance requirements. Information correct at time of printing, February 2021.
Looking for a degree with your name on it? Design your own flexible double degree by choosing from over 750 possible degree combinations.

Satisfy your intellectual curiosity and tailor your studies to prepare for your dream career.

- Graduate with two qualifications.
- Finish in less time that it takes to study two undergraduate degrees separately.
- Have the same full-time workload as a student studying a single undergraduate degree.

For more information on Flexible Double Degrees go to programs.courses.anu.edu.au

Kriti Mahajan
Flexible double degree: Bachelor of Laws (Honours)/Bachelor of Politics, Philosophy and Economics

Before I came to ANU, I didn’t know how contagious passion could be. All of my professors, lecturers and tutors bring invaluable real-world experience to my classes and the way they discuss concepts always makes me feel like I could also contribute to these fields.

I love studying at ANU. From the lifelike assignments and International Relations Society embassy visits to building ‘hotels’ for native bees with the Environment Collective, and being a member of the Dining Club (I’m a foodie!), being at ANU is more than just studying for me.

ANU cultivates unique international communities. This year, I am looking forward to developing academically while broadening my horizons with a student exchange during my summer and winter vacations.

FLEXIBLE DOUBLE DEGREES

Combine:
- any two degrees within the Arts, Social Sciences, Business or Science group
- a Bachelor of Laws with another degree within the Law group
- a Bachelor of Engineering or Advanced Computing with another degree within the Engineering and Advanced Computing group.

Delve into your interests while developing the systematic research skills needed for problem-solving, discovery and innovation.

Lachlan Arthur  
*Doctor of Medicine and Surgery*

When I first came to ANU, I had no idea about the opportunities that would be available to me. I graduated with my first degree, the Bachelor of Philosophy (Honours) – Science, in 2018 after completing my honours year with the Hanann Group in the Department of Cancer Biology and Therapeutics at John Curtin School of Medical Research. Now, I’m in my second year of the Doctor of Medicine and Surgery.

I came to ANU because I believed I’d get the best preparation for my dream career as a clinician-researcher, including opportunities to study abroad at world-class institutions.

I was lucky enough to go on a student exchange through ANU twice during my undergraduate degree. Both trips have been once-in-a-lifetime opportunities that have allowed me to meet incredible people, see amazing sites and gain valuable experience that will propel me towards my dream career.

I completed the five-week International Alliance of Research Universities (ARU) summer program at the University of Copenhagen under the supervision of Professor Rudi Westendorp, a world leader in ageing research. While I was in Copenhagen, I also worked alongside students from Oxford, Cambridge, Peking and Tokyo universities, making connections that will last throughout my academic career.

In Switzerland at ETH Zurich, known for its cutting-edge science and technology research, I worked in four different labs over five months – a whirlwind experience – studying diseases ranging from cancer to Hepatitis C. I also got to study protein crystals using one of the three free-electron lasers in the world.

Skills to get you ahead

The employment landscape is always changing, especially as technology becomes increasingly sophisticated and prevalent in the workplace.

Traditional jobs are disappearing or changing, while new jobs are emerging in response to contemporary needs.

By choosing to undertake an Undergraduate Research Degree you will develop timeless and highly transferable skills that employers are demanding the workplace.

You will graduate with skills that are in global demand across government, non-government and not-for-profit, business, consultancy and academic sectors.

Choose the undergraduate research degree that inspires and challenges you.

**Bachelor of Advanced Computing (Research and Development) (Honours)**

A unique, interdisciplinary degree that will prepare you to be a future leader in the information and communications technology revolution. You will learn advanced computing techniques and have the opportunity to complete a unique major, while developing exceptional professional skills in areas of entrepreneurship and management.

**Bachelor of Engineering (Research and Development) (Honours)**

For high-achieving students interested in becoming innovators and future leaders in engineering.

This degree program combines the fundamental engineering courses with the opportunity to be immersed in research groups covering mechatronics, solar energy, materials and manufacturing.

When you graduate, you will be equipped to solve some of the world’s greatest challenges.

**Bachelor of Finance, Economics and Statistics (Honours)**

An elite program that integrates the three disciplines so you can develop a deep understanding of these fields.

You will be guided by a mentor throughout your studies, and when you graduate you will be recognised for your exceptional aptitude for quantitative financial analysis, conceptual thinking about claims on resources using statistics, problem-solving combining economic intuition and mathematical techniques.

**Bachelor of Philosophy (Honours) (PhB) degrees**

Students will specialise in:

- Science
- Humanities and Social Sciences

**Bachelor of Philosophy (Honours) (PhB)/Bachelor of Science (Honours) (NUS)**

The PhB(Hons)/BSc(Hons) can be taken in three majors (Chemistry, Mathematics or Physics) and is offered as a joint single degree program by the National University of Singapore (NUS), and the Colleges of Science at ANU. This highly selective program provides a challenging course of study for students who have a strong interest in and aptitude for graduate research work.

The PhB is an ideal path to take if you are aiming for a career in research or thinking of joining the workforce directly.

**Bachelor of Science (Advanced) (Honours)**

A flexible program that you can tailor according to the scientific disciplines that interest you while working in a community of world-leading academics.

You will be exposed to advanced concepts and research possibilities leading to a broad range of careers when you graduate.

---

Undergraduate Research Degrees are challenging study programs that give you opportunities for intensive one-on-one guidance from world-leading academics, exclusive placements in research organisations, travel and teamwork.

- You will have the same full-time workload as a student studying a single undergraduate degree.
- You will graduate with skills that are in global demand across government, non-government and not-for-profit, business, consultancy and academic sectors.

The employment landscape is always changing, especially as technology becomes increasingly sophisticated and prevalent in the workplace.

Traditional jobs are disappearing or changing, while new jobs are emerging in response to contemporary needs.

By choosing to undertake an Undergraduate Research Degree you will develop timeless and highly transferable skills that employers are demanding the workplace.

You will graduate with skills that are in global demand across government, non-government and not-for-profit, business, consultancy and academic sectors.
VERTICAL DOUBLE DEGREES IN SCIENCE

When you choose a science program at The Australian National University (ANU), you have the option to build your undergraduate and postgraduate degrees into one program, saving you time and money.

An VDD program usually takes four years to complete and offers you time and cost savings compared with studying a Bachelor and a Master degree separately.

At ANU you can study a Bachelor and Master degree in a shorter time by choosing a vertical double degree (VDD).

Save time and money

You’ll get credit in your Master degree for related areas of study in your Bachelor degree, saving you time and money when compared with studying a Bachelor and Master degree separately.

Stand out from the crowd

Graduating with both a master’s and bachelor’s degree will you stand out from the crowd in the competitive national and global jobs market.

Program exceptions

Medicine, four-year advanced degrees or those with built-in honours, as well as some master degrees cannot be combined in an vertical double degree (VDD) due to their unique degree structures.

For more information on VDDs, go to anu.edu.au/study/apply/flexible-vertical-double-degree-applications

Vertical double degree combinations

^ Refer to table starting on page 18 for minimum selection ranks.
* Program includes another prerequisite in addition to selection rank. See table starting on page 18.
TAILOR YOUR DEGREE

You can choose majors, minors and specialisations to suit your interests or careers goals.

What’s a major?
A major is an area within a program that allows in-depth study in a particular field. A major usually consists of a set number of related courses. Majors at ANU require 48 units of study. Typically, each course is worth six units.

What’s a minor?
As the name suggests, a minor has fewer requirements to fulfil than a major, in terms of points and compulsory courses. Minors at ANU require 24 units of study – so typically four courses.

Specialisations
Similar to a minor, a specialisation is an area of study with its own courses that are allowed to be taken in conjunction with a specific related major.

> For more information on majors, minors and specialisations go to programsandcourses.anu.edu.au
We offer a wide range of majors - here are just a few.

**Business and economics**
- Accounting
- Applied Statistics
- Asian Capital Markets
- Business Information Systems

**SUPPORT SERVICES**

Our student services will help you get the most out of your time at ANU. They are here to build your academic skills, connect you with a mentor and help out with the day-to-day things, like enrolling in your courses, accessing disability support and, when you’re ready, planning your future career.

### Volunteering and skill development program

ANU+ is a program that formally recognises your volunteering experience and contribution. It encourages you to give back to the community, develop employability skills and reflect on your volunteering experiences to gain a deeper understanding of yourself and the world around you.

- [gnuplus@anu.edu.au](mailto:gnuplus@anu.edu.au)
- [anu.edu.au/gnuplus](https://anu.edu.au/gnuplus)
- [facebook.com/ANUPlus1](https://facebook.com/ANUPlus1)

### Develop your academic skills

Develop your academic skills and strategies to meet your study goals with the ANU Academic Skills team.

We provide advice and workshops on a range of subjects, including academic and research writing, study-related issues and referencing to help you thrive during your degree.

- [academicskills@anu.edu.au](mailto:academicskills@anu.edu.au)
- [anu.edu.au/academicskills](https://anu.edu.au/academicskills)
- [facebook.com/ANUAcademicSkills](https://facebook.com/ANUAcademicSkills)

### First-year program

If you’re from a rural or remote location, low-income or refugee background or the first in your family to attend university, the First-Year Experience program is for you. You can also take part if you’re simply looking to build a community and strong support network at ANU early to help you thrive in your studies.

This free strengths-based transition and development program will help you build your connection to the University, your teachers and fellow students through events, activities, support services and much more.

- [firstyear@anu.edu.au](mailto:firstyear@anu.edu.au)
- [anu.edu.au/students/information-for-new-students/first-year-experience-program](https://anu.edu.au/students/information-for-new-students/first-year-experience-program)

### Your students’ association

You will study hard but university is also a great time to make new friends and have fun. Run by students, the ANU Students’ Association (ANUSA) offers 200-plus clubs and societies that explore interests as wide ranging as sport, culture and environmental activism, along with a range of study disciplines.

As an ANU undergraduate student you’ll automatically become a member of ANUSA. That means as well as getting to join in the fun stuff, you’ll be able to access free legal advice and advocacy services and supportive welfare programs – or choose to run for office at the next ANUSA election!

- [anu.edu.au/emspower-hub](https://anu.edu.au/emspower-hub)
- [anu.edu.au/emspower-hub](https://anu.edu.au/emspower-hub)

### Career planning and support

ANU Careers provides a range of services that can help you apply for a casual job, internship or plan your career. Come and see them for application advice, interview preparation or simply to gain some tips to help you successfully transition from study to the world of work.

### Access and inclusion services

If you’re caring for or are a student living with disability or a medical condition, the ANU Access and Inclusion team will help you to participate fully in a program of study by providing advice, adjustment recommendations and support. The team can also help if you’re an elite athlete who needs to fit sporting commitments around your studies.

### Health and medical services

ANU students receive free membership to the National Health Co-op. This means you will be able to access health and medical services at the clinic on the ANU campus as well as eight other medical centres in the Australian Capital Territory (ACT) and nearby Yass. Services include bulk-billed appointments with GPs and psychologists, vaccinations, and much more.

### Respectful Relationships Unit

The ANU Respectful Relationships unit helps the campus community in the prevention of sexual assault and sexual harassment. The unit also assists and supports survivors with sexual harassment and violence reporting.

### Spiritual support

When you need spiritual support, our team of multi-faith chaplains will be available to help. They represent the Anglican, Catholic and Baptist churches and the Muslim, Hindu, Jewish, Bahai’i faiths as well as the Humanist tradition.

### Counselling services

ANU Counselling is a free, confidential and non-diagnostic service that can help support you and enhance your mental health and wellbeing throughout your studies. As well as one-on-one counselling sessions, as an ANU student you will have access to free group programs, seminars and a crisis support line.

### Your safety on campus

Your safety is our priority! ANUOK makes accessing ANU security services quick and easy. These services include security escorts and more.

Download the ANU OK application using PlayStore (for Android users) or AppStore (for iPhone users).
TUITION, FEES & FINANCIAL ASSISTANCE

Australian domestic undergraduate students are eligible for a Commonwealth Supported Place (CSP). This means that your tuition fees are subsidised by the Australian Government.

Tuition fees

University tuition fees in Australia are standardised for Australian domestic students, regardless of which university you attend.

For the most up-to-date information about university tuition fees in Australia for domestic students, go to studyassist.gov.au

Fee help and financial assistance

Financial help is available to eligible students from the Australian Government through various schemes.

HECS-HELP is a loan program to help eligible students to pay their student contribution. For details head to studyassist.gov.au

Youth Allowance is financial help available to eligible full-time students aged between 16 and 24 years of age. For details go to servicesaustralia.gov.au/individuals/services/centrelink/youth-allowance

ABSTUDY is available to eligible Aboriginal and Torres Strait Islander students. For details go to servicesaustralia.gov.au/individuals/services/centrelink/abstudy

SA-HELP is available to enable eligible students at ANU and other Australian universities to defer paying the Student Services and Amenities Fee (SA fee). For details go to studyassist.gov.au/help-loans/sa-help

For up-to-date information about the Student Amenities Fee, anu.edu.au/students/program-administration/fees-payments/services-amenities-fee
