WHY USE THE ANU CLASS TIMETABLES?

At The Australian National University students have the opportunity to self-select courses that best suit them and their chosen Majors, Minors and/or Specialisations within their Program.

Provided you are choosing courses in order, with foundation courses before later year courses, and you are choosing courses that are available within your Program, your course choices are entirely your own.

The ANU Timetable Website can help you both before you have chosen courses and after you have chosen/enrolled in courses. You can:

- Make course decisions, by testing whether course times are clashing or on appropriate days/times for you to manage.
- Organise yourself once you have enrolled in your chosen courses.

Please note that the Timetabling website is for the purpose of view-only timetable information. If you need to retain this information for everyday use, please print your generated timetable after completing the below steps.

THE TIMETABLE VIEWER

To begin, go to the ANU Timetables website by selecting Current Students and then Timetable. Alternatively you can go directly to: http://www.anu.edu.au/students/program-administration/timetabling

Click on the Timetable icon:
Click on the button “Visit Timetable Viewer”. Alternatively you can use the link in Step 1 under “HOW TO DO I CONSTRUCT A TIMETABLE USING THE ANU CLASS TIMETABLE VIEWER?”
### HOW TO CONSTRUCT A TIMETABLE USING THE ANU CLASS TIMETABLE VIEWER?

| 5    | The timetable will display the timetable broken into individual courses. You can merge your courses into one timetable or split it back into individual timetables by selecting the MERGE/SPLIT options on the top of the timetable.  

Please note, in some cases only lectures and not tutorials are included in the ANU Class Timetable. In these cases your tutorials are likely to be announced in your first lecture. |
Your combined timetable will now appear. The courses will be listed, showing their lecture times and locations. Lectures, Seminars, Tutorials and Practicals will be listed in different colours on the timetables.

The timetable will list the name of the course, what type of class it is (lecture, tutorial, practical, seminar etc.), the weeks of the year that course runs, the time that it runs, and the location of the course.

6 | To view your timetable in list view to see which weeks classes will run select the LIST TIMETABLE option when generating your timetable.

For further information on the Class Timetable you can select the Troubleshooting guide by selecting the “i” button at the top of the timetable.
WHAT DO I DO IF I HAVE MULTIPLE CLASSES SHOWING FOR ONE COURSE- DO I HAVE TO ATTEND ALL OF THEM?

Some courses in your timetable may have multiple classes listed. In some cases you may only be required to attend one or two of these classes each week. If you are unsure which classes you need to attend and which classes are optional, go to the first class listed in each course and check with the lecturer. Your lecturer will inform you which classes you must go to, and which classes aren’t required.

Some classes have more than one option to attend e.g. a Lecture or a Tutorial that has more than one ‘Group’ listed. Sometimes these classes are described as ‘Repeats’.

The following details the typical naming convention for classes and what it means for your attendance. Please note that there may be variations across schools so please refer to the course information and work load requirements found within Programs and Courses.

- Where the class name has a suffix containing an incremented letter e.g. LecA/01, LecB/01, LecC/01 this means you need to go to each of the classes. Typically these are Lectures but other activity types can have this structure.

- Where the class name has a suffix containing an incremented number e.g. TutA/01, TutA/02, TutA/03 this means you need to pick one activity only (as A/02 and A/03 are repeats of the content in A/01).

WHAT DO I DO IF I HAVE TWO COURSES WITH CLASHING CLASS TIMES?

If some of your courses have clashing class times, ask your lecturer if you need to attend those classes first.

If there is the option to sit the clashing classes online, or if they are only repeated lectures to accommodate a large class size, this may not cause you any problems.

If both face to face attendance at both classes are essential, however, you will need to make a decision about which course you would rather do more, and change your enrolment by choosing a different course for that semester.

If you do need to change your enrolment but are not certain which course to take instead, please consult with your Academic College Administration (contact details at back of this document) or check your Program Outline in Programs and Courses:

http://programsandcourses.anu.edu.au/

If you have already chosen new courses, and are ready to change your enrolment in ISIS, please be aware of any enrolment change deadlines and follow the enrolment instructions on the ANU Managing Your Program website:
